# MINIPACK-TORRE. UNEXPECTED IDEAS

## FACILITIES

### HEADQUARTERS

MINIPACK-TORRE is located in Dalmine, a few kilometres far from Bergamo. Here there are the Finance & Control and the R&D department, as well as the shrinking and vacuum manufacturing facilities. At present time the manufacturing plant is the core of the company. This is equipped with advanced and flexible tools and CNC machines for the production of all the mechanical components.

### SALES DEPARTMENT

According to the policy of the company to expand and consolidate itself on the market, since some years a new building has been realised near the Headquarters. Inside there is: the sales department, the warehouse and logistic department, a 100 seat theatre for sales meeting and technical training and, last but not least, a wide show room where the whole range of machines is displayed. These are always at distributors and customers disposal for all the kind of tests to be made.

### STEELWORKS

Situated in the manufacturing plant in Osio Sotto (Bg), close to the Headquarters, there is the completely automated steelworks, with Hi-Tech equipment for the production of all the chassis.

Ten world-wide patented models, four technological advanced production facilities (one completely automated), a world-wide distribution network, a widespread technical assistance, the Certificate of Quality UNI EN ISO 9001:2000: this is what today MINIPACK-TORRE is.

In more than 30 years the company has gained a world-wide leader position in the packaging machines field. Any equipment provided is reliable, ensures a good productivity and always impresses for the great ideas which has.

### R&D.

Every year 5% of the general turnover is invested in R&D. This continuous research allows MINIPACK-TORRE to always be on the top level of a market which is constantly in evolution. Thanks to the R&D department the company is always able to offer new advanced and reliable packaging systems.

### SAFETY: TOP PRIORITY.

More than others, MINIPACK-TORRE has taken into great consideration the safety of the operators of their machines. That is why they deeply and continuously studied and developed new safety systems.

### Hi-TECH MANUFACTURING PLANTS.

The manufacturing plants are completely automatised. The staff is continuously working in order to fulfil any specific and customised requirements from all the customers.

### GOING-OVER CONTROLS.

All the materials and components are of first quality. Moreover each production step is supervised by technical skilled employees, each machine is submitted to strict tests and to a long final inspection before being delivered.

### QUALITY POLICY.

The two Certificates of Quality UNI EN ISO 9001 - VISION 2000 obtained in the year 2001 represent an important goal and a never-ended engagement to satisfy the customers thanks to a strict quality control procedure in production, commercial services and after sales assistance.

### DESIGN AND PRODUCTION.

We believe that in order to achieve goods results, every single project has to be personally followed from the beginning to the end. At MINIPACK-TORRE all the steps of a project are entirely developed inside the company. That is why a steelworks has been created inside the company to build all the chassis and the whole components of the machines. This gives a great flexibility to the whole structure.

### WIDESPREAD COMMERCIAL NETWORK AND AFTER SALES ASSISTANCE

Thanks to 2 sister companies in France and in the United States along with more than 110 sales distributors all over the world (25 of which just in Italy) MINIPACK-TORRE is able to provide a widespread and efficient sales network. Moreover the after sales department along with the commercial staff of MINIPACK-TORRE regularly organises sales and technical meetings to train the wide number of distributors and reps. An adequate technical knowledge is compulsory to give the best possible service to the thousands end uses of MINIPACK-TORRE machines.

# MAILBAG

**HIGH PERFORMANCE, LOW CONSUMPTION.  
HIGH SIMPLICITY, LOW COST.**

MAILBAG is an automatic, vertical packaging machine, ideal for magazines, newsletters, catalogues and publications. It uses a roll of film mounted on a motor driven roller.

An adaptor folds the film forming a sealed envelope containing the product. When the process is complete the product is ejected automatically. True simplicity!

# MAILBAG

## FEATURES

- Digital control panel
- Automatic booklet length regulator with photocell
- Independent hot wire sealing bars
- Electronic cutter temperature control
- Integrated product counter
- Products to be packed are fed automatically
- Large working plate

## TECHNICAL DATA

Electrical power supply	V	220
Max. power	kW	0,5
Production per hour*	p/h	0-1200
Machine dimensions	mm	600 x 830 x 1050
	in	24 x 33 x 42
Machine weight (Net/Gross)	kg	130/144
	pound	286/317

\*Depends on type of product, film and operator ability.

## OPTIONAL

- Motor driven outfeed belt
- Double photocell for printed films
- 180 mm x h 8 / 12 / 15 / 20 opening forming boxes  
*7 in x h 0.3 / 0.5 / 0.6 / 0.8 in opening forming boxes*
- 140 mm x h 5 / 18 opening forming boxes  
*6 in x h 0.2 / 0.7 in opening forming boxes*
- Pedal control
- Feeder loader
- Magazine loader
- Automatic horizontal feeding system
- Heat shrink tunnel
